Tax Declaration for individuals Notes and definitions

These notes are for you to keep; please read them before completing and submitting the form.

Why is a tax declaration needed?

- Under Automatic Exchange of Information (AEOI) regulations, Quilter is required to gather information about an individual's tax residency, nationality or citizenship.
- AEOI is a term that covers Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standards (CRS). These regulations are a commitment made by governments to exchange information about financial accounts held by taxpayers in another participating country.
- **National** and **Citizen** may have different meanings under local law. However, they usually refer to a person who has the right to live or work in a country.
- **Tax resident** refers to a person who is resident or deemed resident in a country for the purpose of reporting tax. Their status may be affected by the amount of time spent in a country or whether they're considered a national or citizen.

Completion of the tax declaration is compulsory

- If any information is missing or incomplete, your instruction to us will be delayed and cause the individual(s) to become reportable under AEOI regulations.

Tax Identification Number (TIN)

- A TIN is a number issued by the country's tax authority, usually automatically and on becoming resident in the country.
- Common examples of TIN types are given below:

Jurisdiction	Type of TIN
UK	National Insurance Number - Issued by HM Revenue & Customs
Jersey	Either: <ul style="list-style-type: none"> – Social Security Number – Tax Identification number Issued by Revenue Jersey
Guernsey	Either: <ul style="list-style-type: none"> – Social Security Number – Issued by the Guernsey Revenue Service – National Insurance Number – Issued by HM Revenue & Customs (UK)
