You may want to speak to your financial adviser about the impact of the conversion. Please speak to them before making any investment decisions, or if you have any questions about this change.

**If you don't have a financial adviser**, we recommend that you consider the benefits of receiving professional financial advice, which can be especially important when you need to make investment decisions. If you would like to search for an adviser in your area you can start by visiting [quilter.com/financial-advice/find-an-adviser](https://quilter.com/financial-advice/find-an-adviser).

The last date we can sell from the funds before the conversion will be 11:00 on 05 December 2024.

### How the conversion will affect your account

- **The value of your fund holding** – the conversion will not affect the value of your fund holding.
- **Direct Debits** – If you are paying into the fund by Direct Debit:
  - 1) payments up to and including 05 December 2024 will be allocated to the converting funds.
  - 2) any payments which are due to be collected whilst the conversion is taking place will buy units proportionally across the other assets in your Direct Debit instruction. If the converting fund is the only fund in your instruction, those payments will be allocated to cash. They will stay in cash unless you choose to switch them to another asset in future.
  - 3) payments after the conversion will be allocated to the new funds
- **Treasured assets** – if you have treasured the fund to be excluded when deducting units to meet certain scheduled payments from your account (for example charges and ongoing adviser fees), this arrangement will stop. You can arrange to treasure different assets by providing us with a new treasured asset request form.

### CONDITIONAL IF Charge Basis 1 or 2\* Switches in and top ups

The receiving share class is not available for switches in or top ups on the charge basis that you are in. **END**

- **Phasing and Rebalancing** – Any **phased investment** or **rebalancing** instructions using the funds will automatically continue after the conversion. Unless you give us an alternative choice, future transactions will be reapportioned across the other assets in your instruction, or cash if the converting fund is the only fund in your instruction.

Cash may not be suitable for your long-term investment needs. If you're happy for the amount to stay in cash, you don't need to do anything. Alternatively, you can switch the cash into an alternative asset(s) from our extensive range. Your financial adviser can give us your switch instruction, or you can switch by logging into our online Customer Centre at [quilter.com/login](https://quilter.com/login) or by sending us a switch form in the post.

### A note about cash in your account

We don't take any product or service charges on your cash balance (although the value is still included in the total value calculation for the charge). Instead, we pay you a rate of interest on cash in your account and we are paid by retaining a proportion of the interest we receive from our banking partners.

You can find more information, including the current interest rate payable and how much interest we retain, on our website at [quilter.com/interest-on-cash](https://quilter.com/interest-on-cash).

- **The type of units you are invested for the Premier Miton Optimum Income Accumulation fund will change** – The new fund offers income units only, and as a result your current holding will be converted from accumulation units to income units.
- The conversion **won't change the fund's risk profile**.
- **Ongoing Charge Figure (OCF) /Total Expense Ratio (TER)\*** - the OCF/TER will change with the conversion.

\* The OCF/TER represents the ongoing charges for the fund, expressed as a percentage. It is the sum of the Annual Management Charge (AMC) and all other running costs of the fund. The figure shown is normally the ongoing charges figure (OCF), which is increasingly replacing the total expense ratio (TER). You can find more information about how the conversion will affect the OCF / TER and, where applicable, the Reimbursed Amount or Reimbursed Rebate on the last page of this letter.

### Why the funds are converting

After a review of their share class range, Premier has said that converting into a cheaper share class will give investors lower ongoing costs.

### The next steps and avoiding the conversion

You do not need to take any action unless you would like to choose a new asset from our extensive range. You can switch your holding in the converting funds at any time up until **11:00 on 05 December 2024**. If you decide to switch into a new asset(s), please note that you will also need to update your asset choice for Direct Debit payments, if applicable.

If you have any questions about this letter, please speak to your financial adviser who will be able to help you. Alternatively, you can call or email us using the details shown and we will be happy to help. Our Customer Service Centre is open 8:30am – 5:30pm, Monday to Friday.

Yours sincerely

### Callum Earl

*Head of Customer Operations*

### What this change means for you (and your financial adviser)

The fund-based trail commission for the fund is reducing – The percentage of fund-based trail commission we pay your adviser is linked to the rebate we receive from the fund manager. The rebate is effectively a discount that we negotiate on the fund manager's AMC.

If you have an agreement that your financial adviser receives 'fund-based trail commission' - The reduced rebate means that your adviser will receive less fund-based trail commission for the fund.

If you have an agreement that your financial adviser receives 'nominated trail commission' - Nominated trail commission is a set percentage that you agree to pay your adviser. It includes the fund-based trail commission. If your nominated percentage is higher than the level of fund-based trail commission, we sell units from the funds you're invested in to make up the difference.

As the new rate of fund-based trail commission has decreased, any nominated trail commission will be made up by selling more units from your holding.

Using the maximum amount of 1.5% nominated trail commission and 0.50% fund based trail as an example, we would have previously sold 1.00% of your units each year, to pay for it. The decrease in fund-based trail commission means that we would now sell 1.50% of your units. This is a yearly percentage which we divide by 12 to work out how many units we need to sell each month.
