This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Legal & General Future World UK Equity Fund Unit Class C GBP Income - ISIN: GB00B8F72V68

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

### OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to provide growth in excess of the FTSE All Share TR Net Index, the "Benchmark Index". The Fund aims to outperform the Benchmark Index over rolling three year periods after the deduction of all fees and expenses.
- The Fund is actively managed and seeks to achieve this objective by investing at least 90% in shares of companies that the Investment Manager considers to contribute towards the United Nations Sustainable Development Goals ("UN SDGs"), have strong growth prospects and are incorporated, headquartered or which have their principal business activities in the UK.
- The Investment Manager conducts stock-specific analysis, both prior to making an investment and on an on-going basis to assess a company's contribution to the UN SDGs and environmental, social and governance ("ESG") profile.
- The Investment Manager will invest in companies that it considers contribute to one or more of the UN SDGs. To assess a company's contribution to the UN SDGs the Investment Manager makes a qualitative assessment, taking into consideration the positive and negative impact that a company has from its products, solutions and/or services and business practices.
- The Fund also applies the Investment Manager's ESG Factor Evaluation. The evaluation process allows for the Investment Manager to consider a number of environmental and social factors, for example relating to climate change, water and waste, supply chain, environmental policies and controls, labour rights, health and safety, bribery and corruption. As part of this process, the Investment Manager sets certain minimum standards for issuers of securities held by the Fund. These are determined by defined quantitative thresholds in Active ESG View, a proprietary research tool, and are supplemented by the Investment Manager's qualitative assessment of the sustainability risks and opportunities relating to the relevant issuers. Where issuers fail to meet the Investment Manager's minimum standards under the ESG Factor Evaluation they may seek to limit the Fund's total exposure to such issuers relative to their weights in the Composite Benchmark.
- The Fund will not actively invest in companies on LGIM's Future World Protection List ("FWPL"), LGIM's Climate Impact Pledge divestment list or which derive any revenue from nuclear weapons or, firearms, or more than 5% of their revenues from gambling, the production of tobacco or the production of alcohol
- The FWPL includes certain companies that LGIM considers to be failing to meet global business standards. Companies on the FWPL include companies considered as perennial violators of the United Nations Global Compact, certain companies involved in controversial weapons manufacturing and production, certain companies with involvement in mining and extraction of thermal coal, thermal coal power generation or oil sands which have not set out a clear plan aligned with the Paris Agreement to phase out thermal coal in accordance with specific criteria.
- A summary of the LGIM Future World Protection List Methodology is available at: [www.lgim.com/fwpl](http://www.lgim.com/fwpl).
- The Fund may also exclude companies listed on LGIM's Climate Impact Pledge divestment list. This list includes companies, which after certain period of engagement, continue to: (i) not perform well against LGIM's climate assessment; (ii) are unresponsive to engagement recommendations; and/or; fall behind in meeting LGIM's minimum standards. If the tracking deviation limit is exceeded, holdings of companies that are on the Climate Impact Pledge divestment list may be reduced rather than fully divested.
- A summary of the Climate Impact Pledge is available at: [www.lgim.com/climate-impact-pledge](http://www.lgim.com/climate-impact-pledge).
- Over a market cycle (typically 3 to 5 years), the Fund will comprise on average 30 to 60 companies. The Fund's portfolio will be concentrated.
- The Fund may also invest in collective investment schemes (including those managed or operated by the Manager or an affiliate of the Manager), other transferable securities (including participatory notes, preference shares, permitted deposits, warrants and convertible bonds), cash and near cash, and money market instruments (such as treasury bills).
- The Fund may only use derivatives for the purpose of Efficient Portfolio Management.

#### Other information:

- The Fund is actively managed as the Manager uses their expertise to select investments to achieve the Fund's objectives.
- Your units will be income units. Income from the Fund's investments will be paid out to you every six months (as dividends). This will reduce your capital growth accordingly.
- You can buy or sell units in this Fund on any business day. You need to contact us with your instruction before 12 noon. This is the time we calculate unit prices for this Fund. If you contact us after 12 noon, the units will be bought or sold at the next business day's price.
- The Fund's base currency is denominated in GBP.
- This Fund is designed for investors looking for growth from a responsible investment approach and investment in UK companies.
- Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within five years.
- This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
- If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

### RISK AND REWARD PROFILE

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
  - The Fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
  - Even a fund in the lowest category is not a risk free investment.
  - The value of your investment and any income you take from it may fall as well as rise and is not guaranteed. You might get back less than you invest.
- Further information on the risks of investing in this fund is contained in the

Prospectus available at [www.legalandgeneral.com/reports](http://www.legalandgeneral.com/reports).

The risk and reward indicator may not take account of the following risks of investing in the Fund:

- The return from this Fund is dependent on relatively few individual investments. This means that a fall in the value of an individual investment can have a major impact on the overall performance of the Fund.
- The Fund has a sustainability and/or ESG focus in its investment process which may i) limit the Fund's exposure to or exclude certain companies, industries or sectors ii) impact the Fund's investment performance compared to other funds that do not apply such criteria and, iii) differ from an investor's own sustainability and/or ESG criteria.
- The Fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.

## CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested.

The price for buying and selling units is subject to a Dilution Adjustment See opposite.

### Charges taken from the fund over each year

Ongoing charge	0.78%
----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	of any performance above target. None
-----------------	---------------------------------------

- There are no entry or exit charges.
- The ongoing charges figure is based on the latest available expenses at November 2024. This figure may vary from year to year.
- This Fund's ongoing charges include any charges made by any open ended funds it may invest in. In addition to the ongoing charges, the Fund incurs costs relating to investments in closed ended funds (such as investment trusts). These costs vary and are approximately 0.07%. Portfolio transaction costs are also excluded from the ongoing charges.
- The ongoing charges are taken from the Income of the Fund.

#### Other costs:

- **Dilution adjustment:** On any day, the prices for buying or selling units in this Fund are the same. The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'.
- This can vary but as an example for this Fund we estimate 0.63% for purchases and 0.15% for sales at 31 December 2023. The amount of the dilution adjustment may differ in future.

For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at [www.legalandgeneral.com/chargesandfees](http://www.legalandgeneral.com/chargesandfees).
